On Premises or Cloud Deployment

By combining the rich features of Al Sahmil e-Commerce ERP, features available only in major ERP Solutions, with the latest technologies we deliver solutions that significantly help your enterprise to improve return on investment.

The Complete Solution for your Business

Versatile ERP for any industry, that scales effortlessly across your entire group of businesses

From small business to large group, you will find what you need

AL SHAMIL ERP is made up of applications and tools that help all areas of your business share information more effectively. Al Sahmil e-Commerce ERP integrates all facets of an enterprise into one comprehensive information system. All data is available in real-time which enables stakeholders to make faster, more informed business decision.

With Al Sahmil e-Commerce ERP, all vital business functions (Finance, Production, Supply Chain, Human Resources, Core Operations, etc.) share a central source of up-to-the-minute information. Al Sahmil e-Commerce ERP streamlines the collection, storage and use of your organization's data. Only the right ERP system can help you organize your data for optimum use.

AL SHAMIL ERP is a comprehensive solution that provides rich integrated functionality, covering the requirements of numerous business verticals, and a set of tools to improve user collaboration.

At the heart of the solution are the Finance modules that provide your enterprise with the tools and information needed by your finance organization to implement the required strategies to help your business succeed in today's challenging business environment.

With your entire transactional information at the fingertips of your finance organization, smarter and faster decisions are made.

Depending on your business needs, Al Shamil e-Commerce ERP provides a full set of solutions for your business

If you are in the Trading, Retailing, or simple Manufacturing business, we can meet your needs with rich and flexible solutions for the Supply Chain (Purchasing, Inventory, Production, Sales and POS) requirements including the requirements of specialized business such as Mixed Concrete suppliers, Supermarkets, Fast Food Restaurants or formal dining Restaurants, Car Rental (with Tajeer integration), Van Sales mobile and Automobile Sales. Or,

If you are in the Real-estate business, we have the answers for your Real-estate Investment, Real-estate management, Property Maintenance, as well as Investment Portfolio management rich enough to meet the needs of the sophisticated investor or the Family Office. Or,

If your business is more focused on Construction and Contracting, Project Costing can improve your ability in the Tendering process with rich functionality for Planning, Costing and Tracking of Project Costs that helps you reduce costs as well as risks for any project size. Or,

If your business is in the Medical Services sector, we offer complete solutions for Electronic Medical Records, Medical Billing, Doctor's Commission, Insurance and Appointment Management Solutions for any type or size Clinic.

However, if you are a business group having numerous Business Lines, then Al Shamil e-Commerce ERP is a great solution for you as it covers all of your business needs with the flexibility of introducing new functionality, reporting, and scalability.

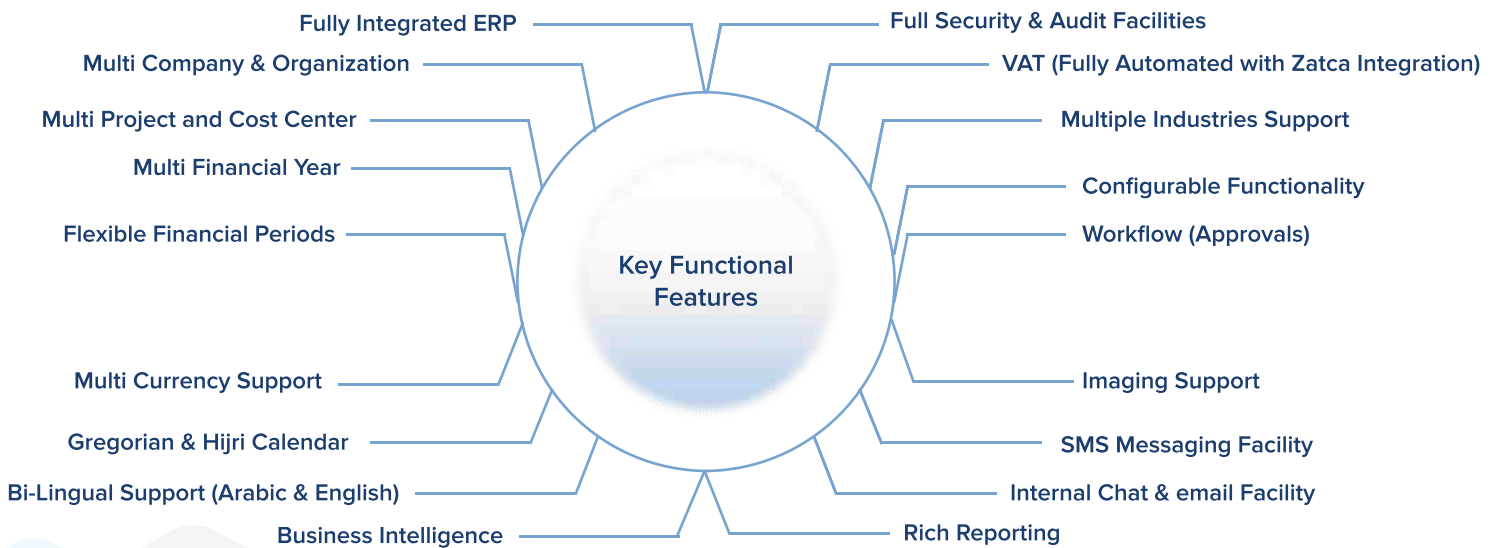

All of this is supported by a rich Human Resources solution and a VAT management with E-Invoice and Zatca Integration solution that meets all the local regularity requirements and automates the full process.

In addition to all the business functionality, Al Shamil e-Commerce ERP provides a rich set of tools that add great value to your business and improves your resources productivity as well as the ability to interact with your customers and suppliers. Tools like Workflow, Business Intelligence, Report Designing, Archiving, Chatting, Emailing, SMS messaging and IOT/IIOT/IOMT integration to enhance your resources ability to improve their productivity and increases the richness of your business information.

With Al Shamil e-Commerce ERP we strive to provide you with solutions to your business challenges and to protect your investment for the long term.

Working with our Customers and Technology partners, we continuously add new features, tools and improvements and listen to changes in the market to ensure that you are one step ahead at all times.
